MUHAMMAD SUAID

Computer Science Student

Projects and Research Work

Waste Sorting Automation System (Arduino)

- Implemented Arduino-based waste classification using IR and moisture sensors
- Developed embedded logic for real-time sorting decisions
- Improved classification accuracy and reduced manual intervention

Equilibriometer for Motorcycles (IEEE Tech Week 2025 Ideathon)

- Proposed balance monitoring system using gyroscope and accelerometer
- Presented design of alert system for unsafe lean angles
- Explored AI-based predictive safety models
- Referred for related Research papers like Yamaha Motoroid2

Hybrid Sentiment Analysis System (NLP / LLM Foundation)

- Developed sentiment analysis system for text feedbacks using VADER, TextBlob, and custom lexicon
- Handled negation, contextual phrases, and intensity modifiers
- Built hybrid scoring combining rule-based and statistical methods
- Created Streamlit app for real-time and bulk CSV analysis

Personal Portfolio Website (Web Development - GitHub)

- Designed and deployed a professional portfolio website to showcase projects and technical profile
- Built responsive UI with structured sections for improved user experience
- Integrated contact form using Formspree and implemented resume download feature
- Version-controlled and deployed using Git and GitHub Pages
- Tech: HTML, CSS, JavaScript, Git, GitHub Pages, Formspree

Certifications

- **Basics of Artificial Intelligence** — Cambridge International Qualifications, UK
- **Agile Project Management** — HP Foundation
- **DevOps Decode** — GoOps Club Presidency University
- **IEEE Tech Week 2025 (Ideathon) -** IEEE
- **Figma Bootcamp** — NSDC / LetsUpgrade

Leadership Experience

General Secretary (2021 - 2022) — Manshar Student's Union
Campus Secretary (2022 - 2024) — SSF Belthangady Sector
Media Secretary (2025 - Present) — SSF KR Puram Division
Official Media Team Member — SSF Bengaluru District

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

About Me

Computer Science undergraduate interested in Robotics & Systems Engineering seeking an internship at ITRI's Information and Communications Research Laboratories. Aiming to streamline the development of autonomous mobile robots by applying expertise in Linux, Docker, and Git/GitHub to support ICL's mission in functional verification and system optimisation.

Education

B.Tech in Computer Science
Presidency University, Bangalore
2024 - 2028 (Expected)
CGPA (Till date): 9.0

PUC - PCMC
Yenepoya PU College, Mangalore
2022 - 2024
Grade: Distinction

SSLC
Manshar English Medium School, Gerukatte
2021 - 2022
Grade: Distinction

Skills

- **Tools and Platforms:** Git/GitHub, Docker, Linux (system operations)
- **Languages:** C, Python, Basic Java
- **Robotics:** Basic ROS2
- **Methodology:** Agile Project Management, Research Documentation
- **Soft Skills:** Critical Thinking, Communication, Leadership
- **Graphic Design:** Figma, Canva

Research Intrest

- Robo-DevOps
- System Optimization
- General AI and Systems
