PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong interest in web development, frontend technologies, and responsive UI design. Familiar with HTML, CSS, JavaScript, MySQL, and Git/GitHub. Experienced in building personal and academic projects, including responsive web interfaces and deployment using GitHub Pages. Quick learner with strong problem-solving ability and interest in modern web technologies.

EDUCATION

Presidency University, Bengaluru, India

B.Tech in Computer Science

2024 - 2028 (Expected)

CGPA: 9.0 / 10.0

Yenepoya PU College, Mangalore, India

PUC (PCMC) | 2022 - 2024

Grade: Distinction

Manshar English Medium School, Gerukatte, India

SSLC | 2022

Grade: Distinction

PROJECTS

Personal Portfolio Website:

- Designed and deployed a professional portfolio website to showcase projects and technical profile.
- Built a responsive UI with structured sections for improved user experience.
- Integrated contact form using Formspree and implemented resume download feature
- Version-controlled and deployed using Git and GitHub Pages

Hybrid Sentiment Analysis & Text Annotation System (NLP):

- Collected and processed textual datasets for sentiment analysis.
- Performed manual and rule-based annotation of text data.
- Cleaned and structured raw data for consistency and quality.
- Addressed linguistic challenges such as negation and context.
- Built a hybrid model combining lexicon-based and statistical methods.
- Developed a Streamlit app.

Equilibrimeter for Motorcycles:

- Proposed balance monitoring system using a gyroscope and an accelerometer
- Presented the design of an alert system for unsafe lean angles
- Explored AI-based predictive safety models
- Conducted literature review on AI-enabled motorcycle balance systems, including Yamaha Motoroid2 concepts.

Waste Sorting Automation System (Arduino):

- Implemented Arduino-based waste classification using IR and moisture sensors.
- Developed embedded logic for real-time sorting decisions.
- Improved classification accuracy and reduced manual intervention.

TECHNICAL SKILLS

HTML, CSS, Basic JavaScript

MySQL & SQL Queries

Python, C, Basic Java

Git & GitHub

Figma

Responsive Web Design

GitHub Pages

CERTIFICATIONS

Figma Bootcamp - *LetsUpgrade*

Basics of Artificial Intelligence - *Cambridge International Qualifications*

Agile Project Management - *HP Foundation*

IEEE Tech Week 2025 (Ideathon) - *IEEE*

ADDITIONAL INFORMATION

- Strong interest in frontend development and modern web technologies
- Quick learner with adaptability and teamwork skills
- Available for work from home opportunities from 1st June 2026 to 1st July 2026
- Interested in gaining practical industry experience through live projects
